

BSK12 REDUPRO

REDUCING CELLULITE SOLUTION

WHAT IS IT?

BSK12 REDUPRO is a professional skin care solution for the treatment of compact or fibrous cellulite. Although we want to reduce facial lines, facial expression is not something I really want to lose completely. It can help accelerate lipolysis and biostimulation of collagen and elastin fibers, promoting microcirculation.

Combines proven lipolytic and skin-firming ingredients that include:

- It contains a high concentration of **L-carnitine** to break down fatty acids and obtain energy.
- The **Centella Asiatica** for antioxidants and skin firming.
- The **Organic Silicon** to stimulate fibroblasts, keeps the skin firm and elastic by maintaining the bonds in the extracellular matrix. Its lack can cause wrinkles.

PRESENTATION

5 Vials x 10ml / 0.35 Fl. Oz.

USE

Reduction of cellulite, flaccid skin.

INGREDIENTS

L-Carnitine, Organic Silanol, Asian Sainfoin Extract.

BENEFITS

Helps reduce the appearance of cellulite, accelerating lipid metabolism, restructuring and detoxifying the tissue. Improves skin tone and texture.
