

BSK73 DMAE + HA CREAM FIRMING MOISTURIZER

WHAT IS IT?

The antioxidant and anti-aging properties of DMAE are mixed with the tightening effect of Hyaluronic.

CHARACTERISTICS

DMAE

The properties of this product with regard to its applications in cosmetics are summarized in the following points:

- It has been shown to have antioxidant and anti-aging properties. This compound is capable of "neutralizing" free radicals in the environment.
- The application of deanol or DMAE to combat wrinkles is basically due to its firming action on the skin when applied at a dose of 2-4%.

HYALURONIC ACID

- Tightening effect and plumps the skin by smoothing wrinkles
- Increases the elasticity and smoothness of the skin.

PRESENTATION

Cream 50ml
Professional Format: 50ml

USE

Facial

- For all skin types (External; do not ingest)

ACTION

- Antioxidante
- Tensor
- Anti-age

HYALURONIC ACID

Hyaluronic acid is a substance in our body and it is the one with the greatest moisturizing power as it is a highly hydrophilic molecule.

It is one of the key substances that give volume to the skin, since it has the capacity to absorb 1000 times its weight in water.

PROPERTIES

Our formula contains 3% DMAE reinforced with Hyaluronic Acid, for which we observe an immediate lifting effect that stretches and tightens the skin, smoothing wrinkles. We can observe it after the first applications of the product and from the fourth to fifth week we will see a lasting firming action, since it fights sagging by improving resistance and muscle tone.

Redefine the body contour. These results remain even for a couple of weeks after the DMAE products have been discontinued.

- Improves the growth of skin cells and ensures the maintenance and functions of the skin
- Prevents premature skin aging
- Improves the health, elasticity and appearance of the skin

USE

- Apply a sufficient amount to the face and décolleté and massage until the cream is absorbed
- It is recommended to apply 'in the morning and at night after cleaning and toning the skin
- It is recommended for all skin types that need firmness and hydration

OUR PRODUCTS

In our laboratory we only use simple, efficient and recyclable packaging with a clean and functional design and we concentrate our efforts and costs on what is truly important for your skin: the quality of the ingredients and the manufacturing processes.
