

# BSK77 TRANEX PRO CREAM INTENSIVE DEPIGMENTING CREAM

## WHAT IS IT?

Professional depigmenting cream treatment that works with BSK14 Tranex Pro and BSK76 Tranex Pro Serum. Formulated with biotechnological depigmenting actives and reinforced with Tranexamic Acid, to act on the inhibition of tyrosinase activity, helping to eliminate the stain and prevent its possible subsequent appearance.

Formulated to work together with BSK76 TRANEXPRO SERUM, as they complement each other in activity, for optimal prevention. Formulated with a base suitable for all skin types.

Moisturizing and nourishing cream, which thanks to its content in ursolic acid and silymarin, participates in the mechanisms of inflammation by inhibiting the synthesis of prostaglandins, in addition to functioning as a protector of the cell membrane, avoiding interaction with irritants.
