

BSK37 BOOSTER PRO

- Facial Exosomes

WHAT IS IT?

Product formulated with hyaluronic acid of three molecular weights, 3 peptides of new generation and a high concentration of **Plant Exosomes** derived from Centella asiatica, extracted with biotechnology techniques that make them effective and stable over time.

Reinforced with extract from the buds of the beech tree, an ancient tree, an extract rich in **Polyphenols**, over **17 Amino Acids** and mineral salts.

APPLICATION METHODS

Facial product for topical use. Apply on the area to be treated, massaging gently until completely absorbed. Suitable for use in appliance techniques.

PRESENTATION

5 Viales x 10 ml / 0.35 Fl. Oz.

USE

Facial
