

# BSK104 MELANPRO CREAM CREAM AGAINST SKIN BLEMISHES

## DESCRIPTION

It completely eliminates the most serious and stubborn stains with maximum efficacy and safety. It has a proven efficacy, giving it a unique dual action for short and long term results.

BSK104 is a cream that complements the BSK200 treatment, making it more effective. The kit contains this product, but it can also be purchased separately to reinforce the treatment at home.

## HOW TO USE

Apply BSK104 MelanPro Cream to clean, dry skin, massaging gently, according to the instructions for use of the MelanPro Protocol Method. Allow to absorb on its own. Use three times daily 48 hours post treatment.
