

BSK PRO-KIT 1

SKIN CARE SOLUTIONS

DESCRIPTION

BSK PRO-KIT 1 is a professional kit designed for comprehensive skin regeneration through the combined action of five advanced, synergistic formulations:

- **BSK29 BIOPLAX PRO**, with a biostimulating and hydrating effect on the extracellular matrix, helping to improve skin structure and moisture balance.
- **BSK37 BOOSTER PRO** which enhances cellular regeneration using Centella Asiatica derived exosomes, supporting skin repair and vitality.
- **BSK32 EYE CONTOUR PRO**, specifically formulated to hydrate and improve the appearance of the periocular area, smoothing fine lines.
- **BSK14 TRANEX PRO**, aimed at regulating hyperpigmentation by helping to control melanin production and promoting a more even, uniform skin tone.
- **BSK36 COLLAGEN-HA PRO**, which combines collagen and hyaluronic acid to optimize skin elasticity, enhance firmness, and provide deep, long-lasting hydration.

Indicated as a professional introductory kit, it offers visible results from the first applications, acting synergistically on hydration, regeneration, radiance, and the prevention of skin aging.

The formulation strategy targets dermal bioactivation by combining hydrating agents, regenerative signals, and depigmenting actives to tackle various skin issues. This synergistic approach promotes cellular turnover, strengthens the skin barrier, and improves overall skin quality, making it ideal for professional skin revitalization and corrective treatment protocols.

PRECAUTIONS

Preserve between 15-25°C.
Keep out of children's reach. Avoid contact with eyes and mucous membranes. Suspend its use if there is allergy, sensitivity or hypersensitivity to the product.
Cosmetic product. External use. Not injectable. Professional use.

PRESENTATION

- BSK29 BIOPLAX PRO - 1 x 10 ml
- BSK37 BOOSTER PRO - 1 x 10 ml
- BSK32 EYE CONTOUR PRO - 1 x 3 ml
- BSK14 TRANEX PRO - 1 x 5 ml
- BSK36 COLLAGEN-HA PRO - 1 x 5 ml

INGREDIENTS

BSK29 BIOPLAX PRO

- Hyaluronic Acid
- Vitamins
- Amino Acids
- Co-enzymes
- Minerals
- Peptides
- PDRN

BSK37 BOOSTER PRO

- Exosomes
- Extract - Beech Buds Tree
- 17 Amino Acids
- Mineral salts
- 3 Peptides
- Hyaluronic Acid

BSK32 EYE PRO CONTOUR

- Organic Silanol
- Hyaluronic acid
- Artichoke extract
- Caffeine
- Rutin

BSK14 TRANEX PRO

- Tranexamic acid
- Ascorbic acid
- Sodium hyaluronate
- Kojic acid
- Niacinamide
- Glutathione
- Troxerutin

BSK36 COLLAGEN-HA PRO

- Succinic Acid (2%)
- Pure Marine Collagen (0.5%)
- Hyaluronic Acid (2%)

METHODS OF USE

Bioskin Dermalife Cosmetic keeps up to date with the latest market trends, techniques and procedures applied in the field of cosmetic devices:

1. Derma Pen
2. Derma Roller
3. In other device techniques: electroporation, iontophoresis, ultrasound, thermotherapy, galvanic, radiofrequency, etc.

It is not imperative to apply Bioskin solutions with the techniques mentioned above, as they can be applied with manual massage.

DOSAGE

The amount of solution required will depend on the size of the area to be treated, which can differ greatly from area to area and also from client to client, who have individual body shapes and sizes.

It is usual to use between 2-5ml when treating the face and between 5-10ml when treating the body.

BENEFITS OF DERMA PENS & DERMA ROLLERS

Both Derma Pen and Dermal Rollers open skin microchannels that trigger an innate body response that offers the following benefits:

- Stimulates the collagen and elastin production.
- Provides a firming and rejuvenating effect
- Reduces the appearance of scars and stretch marks
- Reduces fine lines and wrinkles
- Reduces pore size
- Enhances the absorption of aesthetic solutions

BSK29 BIOPLAX PRO DNA-REVITALIZING SOLUTION

WHAT IS IT?

BSK29 is a skin care with 13 vitamins, 20 amino acids, 2 co-enzymes, 8 minerals, 5 peptides and hyaluronic acid of high, medium and low molecular weight, with revitalizing action.

It contains antioxidant, protective and moisturizing active ingredients, which help restore the extracellular matrix.

This treatment is recommended for dull skin, to revitalize, for example, after cold weather or after long exposure to the sun.

APPLICATION METHODS

Facial product for topical use. Apply on the area to be treated, massaging gently until completely absorbed. Suitable for use in appliance techniques.

PRESENTATION

1 Vial x 10 ml / 0.35 Fl. Oz.

USE

Facial

INGREDIENTES

- Hyaluronic Acid
- Vitamins
- Amino Acids
- Co-enzymes
- Minerals
- Peptides
- PDRN

ACTION

- Revitalizing
- Antioxidant
- Protective
- Moisturizer

BSK37 BOOSTER PRO

- Facial Exosomes

WHAT IS IT?

Product formulated with hyaluronic acid of three molecular weights, 3 peptides of new generation and 1.5 million **Plant Exosomes** per ml of product, derived from Centella asiatica, extracted with biotechnology techniques that make them effective and stable over time.

Reinforced with extract from the buds of the beech tree, an ancient tree, an extract rich in **Polyphenols**, over **17 Amino Acids** and mineral salts.

APPLICATION METHODS

Facial product for topical use. Apply on the area to be treated, massaging gently until completely absorbed. Suitable for use in appliance techniques.

PRESENTATION

1 Vial x 10 ml / 0.35 Fl. Oz.

USE

Facial

INGREDIENTS

- **Exosomes**
- Extract - Beech Buds Tree
- 17 Amino Acids
- Mineral salts
- 3 Peptides
- Hyaluronic Acid

BENEFITS

It deeply moisturizes, improves firmness & leaves the skin more luminous, smooth & revitalized.

BSK32 EYE PRO CONTOUR

REDUCES BAGS, DARK CIRCLES
AND EXPRESSION LINES

WHAT IS IT?

Solution formulated with caffeine, organic silicon, rutin, hyaluronic acid with three molecular weights, and artichoke extract to drain and reduce puffiness, as well as visually reduce expression lines.

HOW TO USE

Topical eye product. Apply to the area to be treated, massaging gently until completely absorbed. Suitable for use with medical devices.

PRESENTATION

1 Vial x 3ml / 0.101 Fl. Oz

USE

Eye contour

INGREDIENTS

- Organic silicon
- Hyaluronic acid
- Artichoke extract
- Caffeine
- Rutin

ACTION

- Drains, moisturizes, and softens the eye contour area

BSK14 TRANEX PRO SKIN TONE BALANCING

WHAT IS IT?

Skin care solution with tranexamic acid, kojic acid, ascorbic acid (vitamin C), nicotinamide, rutin and hyaluronic acid of high, medium and low molecular weight, with moisturizing and depigmenting action.

The formulation of BSK 14 has been reinforced with kojic acid and vitamin C for enhanced antioxidant action, significantly reducing hyperpigmentation. Formulated with hyaluronic acid, with moisturizing activity, increased elasticity and activation of collagen and elastin production due to its low molecular weight fraction.

Vitamins that strengthen and restructure the dermal layer have been used for rapid recovery after treatment. To prolong the effects of the treatment, it is recommended to use BSK76 TranexPro Serum and BSK77 TranexPro Cream.

PRESENTATION

1 Vial x 5 ml / 0.175 Fl. Oz.

USE

· Facial and hand product

INGREDIENTS

· Tranexamic acid	· Niacinamide
· Ascorbic acid	· Glutathione
· Sodium hyaluronate	· Troxerutin
· Kojic acid	

ACTION

· Depigmenting	· Anti-aging
· Evens skin tone	· Antioxidant

BSK36 COLLAGEN-HA PRO COLLAGEN BOOSTER

WHAT IS IT?

BSK36 COLLAGEN-HA PRO solution has been formulated by combining Succinic Acid, Collagen of marine origin and Hyaluronic Acid of three molecular weights.

The combination of Succinic Acid and Collagen is beneficial for fighting signs of aging, improving elasticity, regenerating the skin and keeping it hydrated and smooth.

HOW TO USE

Facial product for topical use. Apply on the area to be treated, massaging gently until completely absorbed. Suitable for use in appliance techniques.

PRESENTATION

1 Vial x 5 ml / 0.175 Fl. Oz.

USE

· Facial

INGREDIENTS

- Succinic Acid (2%)
- Pure Marine Collagen (0.5%)
- Hyaluronic Acid (2%)

BENEFITS

It fights the signs of aging, improves skin elasticity, moisturizes and activates the production of Collagen and Elastin to restore the extracellular matrix, giving firmness.

PRODUCT IMAGE

Preserve between 15°C -25°C. Keep out of children's reach. Avoid contact with eyes and mucous membranes. Suspend its use if there is allergy, sensitivity or hipersensitivity to the product.

Cosmetic product. Topical use. Not injectable. Professional use.
